# Microsoft PowerPoint

It may be surprising for you, but Microsoft PowerPoint is an excellent tool to create the beautiful images. Though you might use this application for designing the presentations only, it can beat other premium tools creating the simple yet attractive images. Once, you design the slide, simply save as one of the image format supported by Microsoft PowerPoint like JPEG, PNG or GIF, etc.

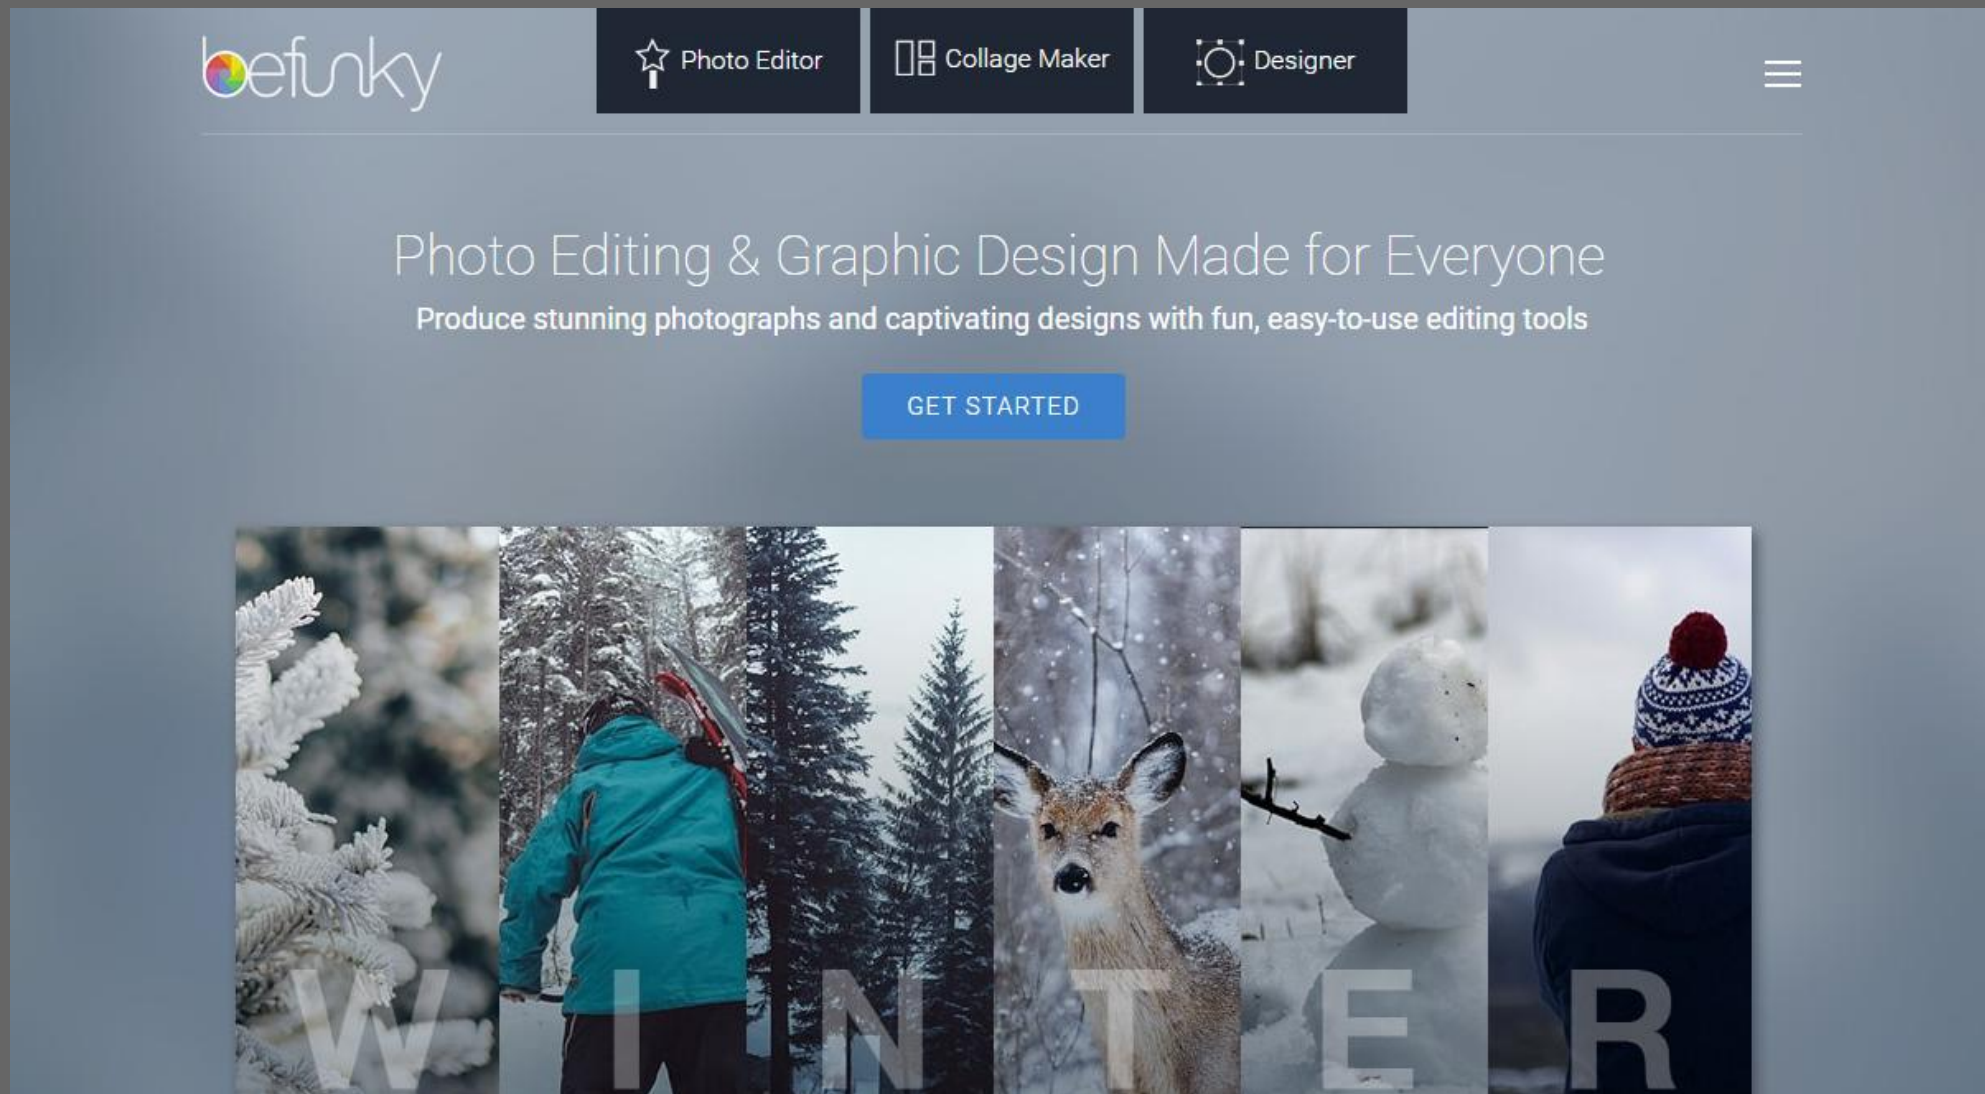

# Piktochart

Piktochart is an online design app available as freemium that requires very little effort to produce beautiful, high-quality graphics. You can create stunning infographics, blog images or design presentation slides in just a few minutes.
